Limited entry permits issued or applied for under this subpart are subject to sanctions pursuant to the Magnuson Act at 16 U.S.C. 1858(g) and 15 CFR part 904, subpart D.

Subpart H—West Coast Salmon Fisheries**§ 660.401 Purpose and scope.**

This subpart implements the Fishery Management Plan for Commercial and Recreational Salmon Fisheries Off the Coasts of Washington, Oregon, and California developed by the Pacific Fishery Management Council. These regulations govern the management of West Coast salmon fisheries in the EEZ.

§ 660.402 Definitions.

In addition to the definitions in the Magnuson Act and in § 600.10 of this chapter, the terms used in this subpart have the following meanings:

Barbless hook means a hook with a single shank and point, with no secondary point or barb curving or projecting in any other direction. Where barbless hooks are specified, hooks manufactured with barbs can be made barbless by forcing the point of the barb flat against the main part of the point.

Commercial fishing means fishing with troll fishing gear as defined annually under § 660.408, or fishing for the purpose of sale or barter of the catch.

Council means the Pacific Fishery Management Council.

Dressed, head-off length of salmon means the shortest distance between the midpoint of the clavicle arch (see Figure 3 of this subpart) and the fork of the tail, measured along the lateral line while the fish is lying on its side, without resort to any force or mutilation of the fish other than removal of the head, gills, and entrails (see Figure 3 of this subpart).

Dressed, head-off salmon means salmon that have been beheaded, gilled, and gutted without further separation of vertebrae, and are either being prepared for on-board freezing, or are frozen and will remain frozen until landed.

Fishery management area means the EEZ off the coasts of Washington, Oregon, and California, bounded on the north by the Provisional International Boundary between the United States and Canada, and bounded on the south by the International Boundary between the United States and Mexico. The northeastern, northern, and northwestern boundaries of the fishery management area are as follows:

(1) Northeastern boundary—that part of a line connecting the light on Tatoosh Island, WA, with the light on Bonilla Point on Vancouver Island, British Columbia, southerly of the International Boundary between the United States and Canada (at 48°29'37" N. lat., 124°43'33" W. long.), and northerly of the point where that line intersects with the boundary of the U.S. territorial sea.

(2) Northern and northwestern boundary is a line¹ connecting the following coordinates:

<i>N. lat.</i>	<i>W. long.</i>
48°29'37.19"	124°43'33.19"
48°30'11"	124°47'13"

(3) The southern boundary of the fishery management area is the U.S.-Mexico International Boundary, which is a line connecting the following coordinates:

<i>N. lat.</i>	<i>W. long.</i>
32°35'22"	117°27'49"
32°37'37"	117°49'31"
31°07'58"	118°36'18"
30°32'31"	121°51'58"

¹The line joining these coordinates is the provisional international boundary of the U.S. EEZ as shown on NOAA/NOS Charts #18480 and #18002.
